SECRET, 50X1-HUM

Comment. Units of the 25th Tank Div confirmed by theereport as being 50X1-HUM stationed in Prenzlau until the end of October 1952 include the 175th Tank Regt and the unidentified Mort Regt in the barracks installation on the southeast side of Berliner Strasse and the 83d Gds Hv Tank SP Regt in the barracks installation on the northwest side of Berliner Strasse. The two artillery units in the barracks installation on the southeast side of Berliner Strasse cannot be accounted for. As a subunit of the mortar regiment they would be too large, considering the number of buildings occupied by the individual units as well as the T/E of the units identified. For example, the 175th Tank Regt with about 1,300 men occupies two buildings, and the mortar unit with about 600 men is quartered in one building. Accordingly, the artillery unit of Colonel Malakhatke would have 2,000 men and that of Lieutenant Colonel Pugachev about 600 men. Although the 296th Gds AT Arty Regt of the 11th Gds AT Arty Brig (?) has previously been carried in Prenzlau, the entire brigade, according to other information, can be carried in Bernau. The identification of the artillery units concerned is not known. The officers reported on are known from previous reports. One Colonel Kusmin who has been carried as commanding officer of the 83d Gds Hv Tank SP Regt, is presumably only supply officer of the regiment. Paragraph 3 of the report indicates that the exchange of personnel was made by the above mentioned units. Nost of the are believed to belong to the 25th Tank Div. 50X1-HUM motor vehicle
